Inspired by the mountain ranges in Lauterbrunnen, Switzerland, glimpsed on a golden hour hike, the FAUNA Roll Holder embraces all that is natural. As the illuminated range peaked over meadows of wild flowers, the FAUNA Roll Holder took shape: feminine, timeless, strong and organic. It features a branched base that affixes to the wall, with a one sided bar for ease of use and an elegant free floating design. Pair with the FAUNA Towel Bar and Wall Hook to complete the look. Crafted with a living finish that ages and changes with the seasons.
